NEW COLOURS OF HANEX®

Through our sister companies and our parent company, the Hyundai Department Store Group, new trends are conceived by our design & development teams and brought to market after intensive testing by our production & quality teams. The 11 new decors will set new accents in interior design. We look forward to your great results.

PREMIUM COLLECTION OF HANEX®

Our aspiration is to create added value for customers and their products. In our premium collections, we impressively demonstrate our pioneering role in the conception and implementation of the trends of the day after tomorrow with the technology of tomorrow.

CASCADE

Inspired by the natural beauty of cascading waterfalls. Cascade collection features feathery veining with subtle color variation that perfectly resemble the effortless flow of water. Its low color contrast trait allows Hanex to be matched with any interior space.

VENATO

Venato is a series of Hanex into the design and manufacture of solid surfaces which are not merely imitation of the real marble. After having reinterpreted the texture and vein of calacatta, Hanex now offers a new way of considering the preciousness of a marble.
